

Metric button size chart

Printed at actual size. Solid line is the cut line, dotted line is the finished button face.
Hold a button against the drawing. Check the ruler at the foot of the page first.

Round buttons

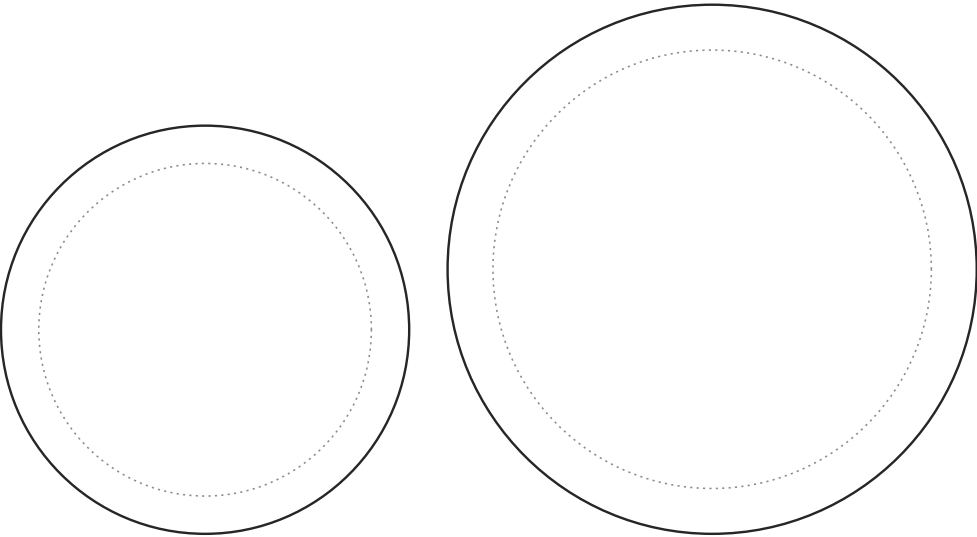

Most presses sold on Amazon and eBay.

25mm round
Cut 35.2mm
Face 25mm
Bleed 5.1mm per side

0.51mm corners

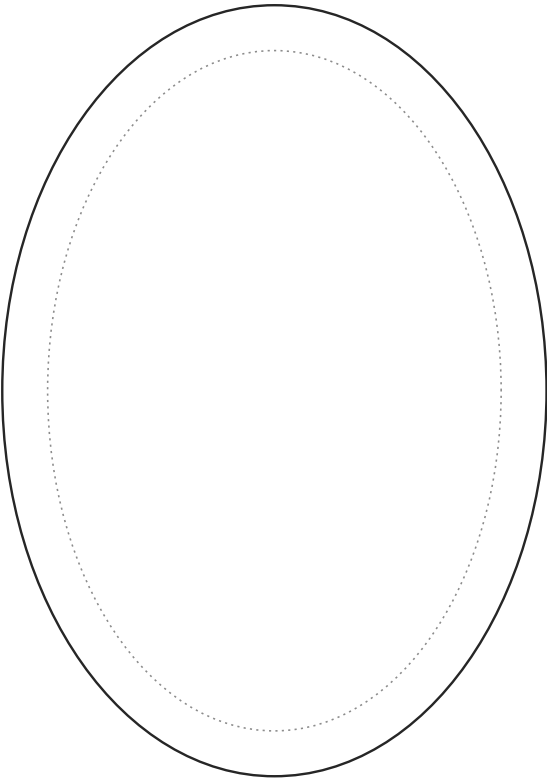

50mm square
Cut 63mm
Face 50mm
Bleed 6.5mm flats
0.51mm corners

Oval buttons

ChiButtons publishes these. Where makers disagree we take the larger cut: surplus wrap gathers behind the shell, short wrap exposes the rim.

45 x 65mm oval
Cut 57 x 81mm
Face 45 x 65mm
Bleed 6mm sides
8mm ends

60 x 90mm oval
Cut 72 x 102mm
Face 60 x 90mm
Bleed 6mm per side
